INTERVIEW & CAREER TALK

with Mark Michaelis, CEO

BIO

Mark Michaelis is a premier authority in Microsoft development technologies with recognized coding expertise and proven training methods. Mark is a regular speaker at developer conferences worldwide and author of numerous articles and books such as the Essential C# series. As IntelliTect's CEO, Mark delivers customized strategic technology consulting to CIOs, technology executives, and industry leaders. Recognized by Microsoft as a Regional Director since 2007 and distinguished Microsoft MVP for C# for twenty-five years, this leader is also an adjunct professor at Eastern Washington University and founder of the Spokane .NET Users Group.

IntelliTect

HOW TO FAIL YOUR COMPUTER SCIENCE CAREER!

It's taken you four years (some more, some less), and now you are looking for the "perfect job." Join us to discuss what to look for if you want a job, you will hate. We will review what things to ignore, how to prepare for an interview, and what real companies are looking for in a candidate. There will be lots of time to ask questions, and we will have signups for interviews – either real or just for practice and feedback.

Please join Mark Michaelis and the IntelliTect team to discuss how to interview and select a company ideally suited for software developers.

- Great speaker
- Has lots of advice for students looking for a job in tech
